

I'm able to listen to K-LOVE in any area I travel to, including out of state. It's not broken up. I strongly encourage this system to continue in this manner. Local events are also listed, with updates.

If K-LOVE were displaced, the FCC would be doing a huge disservice to the supporters who want this particular station intact. The message here is, "look we are supporting what we want to hear in the manner of its presentation, don't take that from us!" Why would the FCC want to step in and change our radio family!

Just as OBP has its supporters, so does Christian radio...
